

I'm the setup wizard.

Import your health record files while I provision your private AI agent.

An Apple Health "PDF Export" file is particularly useful but not mandatory.

Once your files are indexed into your private knowledge base, I will help you create and verify your Current Medications and a Patient Summary.

Files to be indexed

- File 1
- File 2
- add a file

No more files to add - Index now

Indexing in-progress. Could take 5 to 60 minutes.
